**Frameless Shower Enclosures Brochure**

Syracuse Glass fabricates custom heavy glass frameless showers enclosures for New York State's leading installation professionals. We are pleased to be among an elite group of glass fabricators to offer Guardian ShowerGuard – an innovative coated glass product designed especially for showers.

**We've teamed up with hardware power house C.R. Laurence to bring you the best!**

As a C.R. Laurence master distributor, we offer our customers CRL's Showers Online software to manage the complexity entailed in frameless shower doors & enclosures. And we now stock a selection of basic shower hardware in house for quick & easy shipping with your glass. Chrome, Brushed Nickel & Oil Rubbed Bronze finishes are currently available.

Use the CRL design criteria for a totally frameless shower enclosure – without headers!

Call Tiffany Humphrey in our office for the worksheet or download it from our website – go to the technical info page under the shower enclosures section.

As long as these criteria are followed, a header-free enclosure is permitted based on engineering performed by the CRL Showers Online software.
