

## SCHOTT PYRAN PLATINUM GLAZING MATERIALS

Schott's UL listing allows three types of glazing tape:

- Alumino-silicate fiber glazing tape (such as Unifrax Corporation Fiberfrax)
- High performance intumescent glazing tape (such as Pemko FG3000S90)
- Medium density PVC closed cell foam tape (such as Capital Tape Co V1510)

The most economical option is the foam tape. This can be purchased from:

Capital Tape Co.  
4920 Commerce Pkwy #11  
Cleveland, OH 44128  
888-888-8273

The V1510 tape in 1/8" x 1/2" dimensions is a standard stocked product available in 75-ft rolls with single sided adhesive, with 24 rolls per case. Volume discounts and other dimensions are also available.

A close equivalent medium density PVC closed cell foam tape is available at:

Sealant Engineering Associates  
239 James Street  
Bensenville, IL  
630-860-7878

1/8" x 1/2" x 100 LF Norton V990/980 PVC Foam Tape – double sided adhesive - 100 linear foot roll,  
Prod. Code: V9841812
