

SYRACUSE GLASS COMPANY PLANT TOUR

Course #: CNY06 Provider#: 38174738 Credit Designation: 1 AIA/CES LU

Syracuse Glass Company, located in Syracuse, NY, serves Upstate New York and Northeastern Pennsylvania as a manufacturer of architectural glass and aluminum products primarily used in commercial buildings.

Founded in 1909, SGC supplies Division 8 Contractors, home improvement retailers or select manufacturers. Products include insulating glass, tempered glass, fire rated glass, all glass entrances, shower enclosures, and custom aluminum entrances and storefronts.

SGC has a long history of providing quality products, service and support, with it's service culture, world class fabrication equipment, alliances with leading glass industry firms like Guardian, PPG, and Pilkington, and active membership in trade organizations like the Glass Association of North America.

Properly specified, glass products delight clients, provide comfort and safety to occupants, save energy, last indefinitely. SGC's two architectural sales reps., inside sales staff, and website www.syracuseglass.com can assist design professionals.

LEARNING OBJECTIVES

What are the roles of glass manufacturers, coaters, fabricators, and installers?

How is Insulating Glass and Tempered Insulating Glass manufactured and specified?

How are All Glass Entries and Custom Frameless Showers manufactured?

How are Architectural Aluminum Doors and Frames manufactured, why specify narrow, medium or wide stile doors, and what are some common hardware choices?
