 **SHOWERGUARD™**
FOREVER BEAUTIFUL

ShowerGuard glass.

Does beautiful things for showers.
And your bottom line.

ShowerGuard glass is the first and only shower glass that provides permanent protection against corrosion and discoloration. With our patented ion beam technology, ShowerGuard glass is resistant to the corrosive effects of hard water, heat and humidity which, over time, make standard shower glass nearly impossible to keep clean. ShowerGuard glass permanently seals the glass against corrosion, so scum, scale and residue have nothing to grab on to. Which means your customers will have shower glass that's easy to clean and keep as beautiful as the day it was installed. And since people will pay more for the added convenience and high-end aesthetics of ShowerGuard glass, it's also a beautiful way for you to improve your margins.

Scum-free glass. Gripe-free customers.

Unlike spray-on or wipe-on treatments that have to be reapplied, ShowerGuard glass is permanently protected. Because our ion beam process occurs prior to tempering, you can avoid additional production steps and hidden costs. And since ShowerGuard glass requires minimal cleaning with everyday household cleaners, it's easy for your customers to maintain. Most importantly, ShowerGuard glass is covered by a 10-year limited warranty, which means peace of mind for you.
