Stocked items indicated in red. Items in black letters are brought in for specific projects and **are not** stocked to order.

Products in the same rows are equal performers. Uncoated products can be mixed on a project with the exception of white or light colored OpaciCoat

Coated products should not be mixed within one project

UNCOATED TINTS CAN BE INSULATED WITH THE FOLLOWING LOW-E INBOARD LITES:

Pilkington Energy Advantage, SB60, SN68, SB70, SNX62/27, SB67, SB90
